Contributions - Data Synthesis

- person placed randomly
across the BG

 flying people

Baseline Method:

- tracked person is always fully visible

🚫 no occlusions modelled

Synthetic Image I_t

Synthetic Mask M_t

New Approach:

- **joint data synthesis** for all people in the sequence → **occlude** people with each other

Contributions - Data Synthesis

Baseline Method:

- tracked person is always fully visible
- 🚫 no occlusions modelled
- person placed randomly across the BG
- 🚫 flying people
